**Client : Sharjah E-Government Department**

**Key Features of the project :**

Revamping of main Sharjah.ae portal.

Salient features:

- 1.Multilingual (English and Arabic)
- 2.Responsive designs
- 3.Providing complete information about Sharjah Emirate to the public

**Project Description:**

This multilingual portal (English and Arabic) providing complete information about Sharjah Emirate to the public. Sharjah government wants to create a good user interface website design,because the potential customers find the website to be too complicated to navigate or too busy and confusing . We neologix have designed the visual part of www.sharjah.ae website. Great user interface design must have a perfect balance of amazing looks and interactivity with ease of use and simple navigation.
